Instructions

- Print the cutting practice pages. Printing on colored paper is often a nice treat for kids.
- Prompt children to put their thumb in the small hole of the scissors and turn their wrist so that their thumb is on top.
- Direct children to cut along the dotted lines. Singing a song such as "Open Shut Them" can tune them into the activity and how to move the scissors.
 - For beginners, focus on the straight lines and the push forward motion.
 - For children who have the hang of that you can get them to try trickier lines that require them to turn the paper as they cut.
- Some children may require left handed scissors or scissors designed by occupational therapists. These scissors are usually available at education supply stores.
